A Few things we're great at:

CUSTOM WEBSITES "DONE FOR YOU"

Sirius Web Services is your best choice for Designing, Building, Creating, Developing, and Hosting Websites; plus all the hundreds of technical details involved.

"Done for You" You direct and provide the info, then we do the work.

We customize your website from the information you provide to fit your business profile and your description of products and services you offer. Sirius Web Services is a creative website designer developer that works for you to build your website for you. Yes, it is "DONE FOR YOU". We do the heavy lifting for you, even domain name registry.

We can also assist you with Icons, logos & Header designs: Just ask!

Google says, "97% of consumers search for local businesses online before they buy."

Will they find your business?

As you know to be successful every business must be found, whether it is online or on the street or both. Being found on page one of Google will no doubt help grow your business and will enable you to quickly and efficiently gain an online presence that promotes your business and your products and services, and points your prospects to you thru your telephone number, street address, and online contact. Just imagine this: Your website done for you. That's right, designed, created, developed, published, hosted and all "done for you"! Then you

can get FOUND on online using Google Search.

Cloud Hosting Included

sirius Web Services.Com and all its hosted clients are now hosted on cloud servers. Hosting is included in all our plans unless clients requests otherwise.

Website Done for YOU!

YES! “Done for You”. You Direct and we do the work. The more you are involved in providing information “the better your website will become”.

Graphic Designer

Logos, Icons, and Header Designs. Tell us what you want. We can take your photos and your ideas and create web graphics for your website.

Maintenance & Support

Included: Support is a critical part of our services to you. Get support using our dedicated email, or our premium Help Desk Ticket System.

Registering Domains

We will assist you with registering or transferring your domain name. Just Ask. We can even Migrate your site to our cloud servers free of charge. Just Ask!

Responsive Design

Your website will be built to respond to smart devices allowing you to sell to clients who are on the move. Let us know what you want to sell.

Social Integration

You can create marketing blogs to promote your products on your favorite Social Media, then we can post your Blogs & Posts to Social Media for you.

get_FOUND on Google

To get FOUND on Google is Essential to website success. When your agreement includes SEO we will guarantee your Google listing so you can be found online.
